

INSTANT DESIRE

You'll fall in love with Zanussi's built-in coffee machine. Its great looks and practical design are made for ease of use and help keep your kitchen tidy.

STYLISH DESIGN

Styled to coordinate perfectly with your other kitchen appliances and installed on telescopic runners for ease of use. Zanussi's coffee machine is stylish in any setting, especially when installed in-column with other Zanussi products. Simple sophistication, made especially for you.

COFFEE SOLUTIONS

Zanussi lets you get the best out of your favourite coffee every time. The coffee machine can take fresh beans, pre-ground coffee and even easy to use coffee pods, preserving the taste for the time you want it.

PREFERRED STYLE

An endless supply of quality espresso, cappuccino or your preferred style of coffee. The machine has a hot water dispenser for long coffee drinks and a steam spout for frothy milk drinks too. Your choice at the touch of a button.

1-2 CUPS SELECTION

Save time with Zanussi's unique 1-2 selection system that lets you make two cups in the same amount of time as one.

Coffee machines
